

Solar panels on top of the cheapest energy

And yes, we take care of the installation for free!

Save up to hundreds of euros extra per year thanks to our solar panels!
EnergyVision installs solar panels on your roof at no cost to you, we cover installation, maintenance, and any repairs. And you? You get to enjoy affordable electricity, worry-free.

How does it work?

Our formula combines solar panels with the cheapest energy contract, allowing you **to cap up to 70% of your energy bill at a fixed rate for at least 10 years.** That way, you're protected from surprises and price hikes in an ever-changing world. Our formula includes three components:

Solar panels

We invest in your solar panels,
you pay absolutely nothing for the installation.

For the electricity you consume from your panels, you pay a fixed low rate of **€0.20/kWh, with no extra fees, guaranteed for 10 years.**

If energy prices surge due to decisions by politicians like Trump,
you remain protected for 10 years.

The energy doesn't go through the public grid, **so you don't have to pay any distribution fees, taxes or surcharges.**

Fixed energy rate

The cheapest energy

Combine your solar panels with a fixed-variable contract.
 The best of both worlds:

Each year, you receive **1,000 kWh at a low, fixed rate.** This rate remains **locked in for 10 years.**

We supply **green energy that we generate in our own installations** and deliver it to you through the grid.

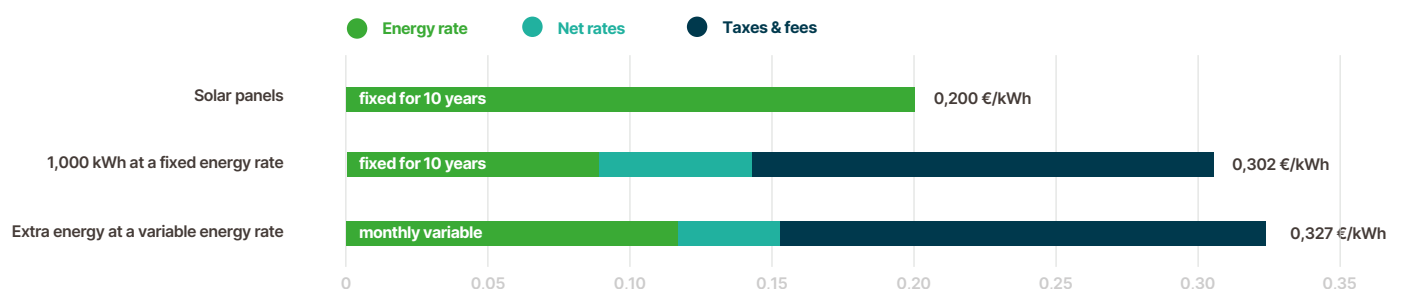

No obligations: you can switch energy suppliers at any time and still enjoy solar panels.

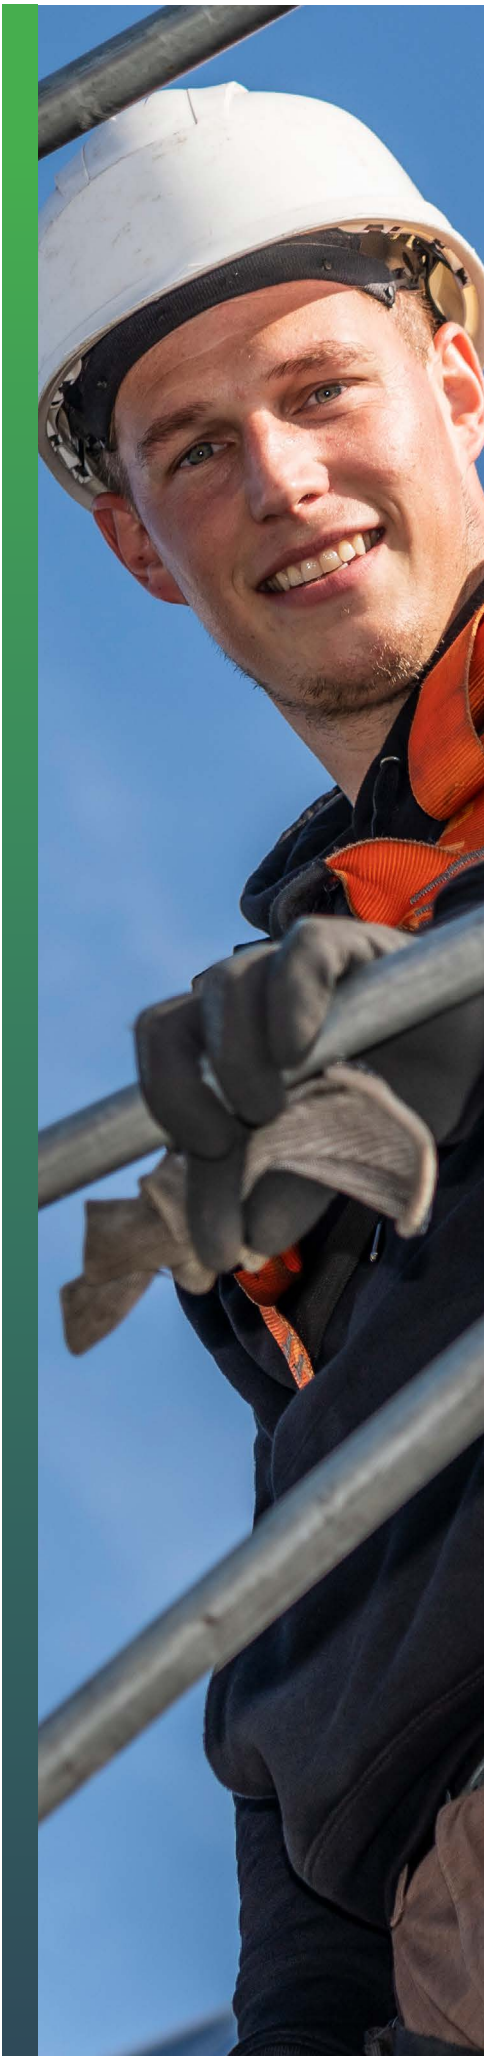

Variable energy rate

Need **additional energy** on top of the 1,000 kWh and the solar power from your rooftop? You'll receive this at a **variable rate** that changes each month. If the price goes up, you'll feel it only slightly (only for this component). If the price goes down, your rate goes down as well.

* Example based on a family in Ghent with an average yearly usage of 3,500 kWh.

Frequently Asked Questions

Do you qualify?

To be eligible for solar panels:

- You are the **the homeowner**
- You must be a **private individual** (we're working on a solution for businesses)
- You must have a **digital meter** or be willing to install one
- Your roof must be **asbestos-free**

Signed up but your roof isn't suitable?

No worries! You still don't pay anything at this stage. Only if you decide to have the solar panels removed from your roof will there be a cost involved.

What is the duration of the solar panel contract?

Your contract runs for **10 years** and can be automatically **extended up to two times**.

EnergyVision remains the owner of the solar panels for **up to 30 years**. After that, they're all yours.

What does your personal construction file include?

First, we check whether your roof is suitable using satellite images. Then we create a custom installation file that includes:

- The **type and number** of panels
- The **layout on your roof**
- The **cable route**
- The **type and number of inverters**
- **An estimate of the work required** for installation

Once you give us the green light, we get started! And the best part? It's all completely free, you pay nothing for the panels or installation.

How are the solar panels maintained?

EnergyVision takes care of everything: inspection, paperwork, monitoring, and maintenance. It's all free, you don't have to lift a finger.

What if I want to renovate/ remodel?

Need the solar panels temporarily removed during renovation work? No problem. **We'll take them down for up to 14 days**. The cost is €40 per panel (minimum €250 per visit). Self-removal or using a third party is not allowed.

Want to opt out? Here are your options:

Buyout

You can choose to purchase the solar panels. The price depends on the number of panels and the remaining duration of your contract. (You can find the buyout table in your contract.)

Contract termination

After more than 5 years: You can either buy the panels (see Buyout) or have them removed by EnergyVision for a fee of €750.

After less than 5 years: You are required to buy the panels, with the price based on the number of panels and how much time is left on your contract.

What if you sell your home?

Planning to move? No problem! You can ask the new owner to take over the agreement.

If the new owner agrees, let us know and we'll take care of everything.

If the new owner does not agree, your contract ends on the day of the sale and you take over the solar panels. Has your contract been active for more than 5 years? Then you can choose: either purchase the panels or have them removed for €750.

Selling only part of your property? Be sure to inform the co-owner and obtain their written consent.

What if I change my mind?

You have 14 days to cancel your contract by email at herroeping@energyvision.be or by letter to EnergyVision, Kortrijksesteenweg 1071, 9051 Ghent.

What are the next steps?

1

Sign up via the QR code or the button below.

2

We'll prepare your construction file so you know exactly what to expect.

3

Once approved, we'll install the solar panels in no time.

4

You enjoy green energy, and we'll take care of the maintenance and monitoring!

Do you have any questions? Feel free to contact us. No call centers or chatbots, just real people ready to help you.
